* Rotation reversible by changing the electrical connection.

Note: 0402402 and 0402403 are going out of production and are only available while stocks last.

TECHNICAL FEATURES:

Single and three-phase motor, 4 poles, maximum usable power 185W, for fans up to a diameter of 400 mm.

Fitted on self-aligning bushings with lubricant reserve. CL "B", IP44. Motor casing diameter 106 mm

Fixing centres for the 3 holes at 120°, 157 mm

WIRING DIAGRAM, SINGLE-PHASE MODEL:

Common Blue Wire
Clockwise rotation Black Wire
Anticlockwise rotation Brown Wire

WARNING: If the black and brown wires are connected together, an irreparable electrical fault occurs.
