92	92	25	1.40	3000	2.1	0.20	38	0.100	0401092	8,68
120	120	38	3	2800	7.7	0.32	42	0.300	0401093	27,05

GENERAL CHARACTERISTICS:

Made of black non-inflammable polycarbon, blades mounted on sintered and impregnated bushings. Each fan is designed so that, when the motor is stuck, the windings do not burn out. Also the use of non-combustible material guarantees greater safety.

APPLICATIONS:

Cooling of control units, control panels, computers, etc.

TECHNICAL FEATURES:

DC Motor 24 V

Working temperature -20°C to +80°C

ACCESSORY GRIDS IN PLASTIC FOR AXIAL FANS AC AND DC
