

SINGLE-PHASE MOTORS FOR CONCRETE MIXERS

Insulation class F, 230V

DESCRIPTION	HP	POWER SUPPLY	POLES	TYPE	V	HZ	CODE	€
MEC 80	0,75	Single-phase	4	B3	230	50	BM804075B3-B*	221,50
MEC 90S	1,5	Single-phase	4	B3	230	50	BM90S4150B3-B*	285,70
MEC 90L	2	Single-phase	4	B3	230	50	BM90L4200B3-B*	293,48
MEC 90L	2.5	Single-phase	4	B3	230	50	BM90L4250B3-B*	329,00

* While stocks last

DESCRIPTION

Trip switch protection provided by amperometric thermal protector.
Fuse for stuck shaft.

Protection against accidental resetting.
Switch with minimum voltage coil.

STARTERS

DESCRIPTION	VOLTAGE MAX.	CURRENT PLUG	TYPE	☒	CODE	€
Single-phase motor starter	220	16		1	3200250	51,50
Three-phase motor starter	380	16		1	3200251	
Three-phase + neutral motor starter	220	16		1	3200252	

GENERAL CHARACTERISTICS:

ABS box IP44
Emergency button
Version: single-phase 220V; three-phase 380V
Electric safety function for black-outs
Power supply cable in neoprene rubber: length 1,5 m

Buttons protected by a transparent plastic cover.
Cable clamp supplied with the cable exit.
Conforms to the IEC EN 60947 standard

This device does not have trip-switch protection.
