

TAPE DISPENSER TDA025B

Single system for positioning and cutting tape to size, using a rotating plate that allows the operator to find a variety of cuts readily available.

CHARACTERISTICS

- Ideal for multiple operations
- Tape lengths mm: from 3 to 25
- Cutting length mm: from 15 to 70
- Max external diameter of tape mm: 150

- Internal diameter of tape mm: universal
- Cutting tolerance: +/- 2mm.
- Cutting length setting: automatic
- Weight Kg: 1.9
- Dimensions (LxWxH) cm: 30x16x16

Ideal for cutting insulating sleeves, sleeving, Nomex®, etc. This machine is fully controlled by a microprocessor and using a stepping machine guarantees maximum precision in executing tasks. It is fitted with a safety device that automatically stops the cut if the material comes out. It does not require further blades for the various materials to be cut.

CHARACTERISTICS

- Length setting and cut count: Digital
- Maximum cutting width mm: 110
- Cutting length mm: from 1 to 9999
- Thickness mm: 6.35
- Cutting tolerance: +/- 1 mm.
- Cut and drag: Automatic
