\* limited stocks

BREMAS offers a complete range of Box solutions, with construction details in line with the most recent market demands, making these products suitable for the most disparate uses: motor control boards, circuit breakers, switches.

The boxes are made in ABS in sizes up to 63A, sizes 100-200A in sheet metal.

There are versions available with front control or side control lever.

## CHARACTERISTICS

Protection grade up to IP55

Front or side control

Case in thermoplastic material with double insulation

Terminals for Systems with 5 conductors

Lockable finishes in the "OFF" position, and lid lock in "ON" position for versions with front control.

Easy to remove precut tracings and holes, to simplify wiring operations.
